Order by Friday, September 27th

Pick up Saturday, October 5th
between 8 am and 3 pm

at the Madison County Landfill
6663 Buyea Rd. Town of Lincoln

While Supplies Last.

Kitchen Caddy
\$7

Easily collect kitchen waste and transport it to your compost bin with this convenient kitchen caddy.

Conveniently stores on counter or in cupboard. When the ergonomic handle is fully up or down, it creates a tight compression closure to seal in odors and secure contents while carrying.

Compost Bin
\$49

Effective and simple to use, this \$100 value compost bin is a great way of turning most kitchen and garden waste into a rich and powerful soil conditioner.

Strong, durable construction. Windproof lid. Wide top opening and convenient side harvest hatch.

Compost Turner
\$15

Maximize composting efficiency by turning the pile occasionally with this easy and effective compost turner.

Turning the pile allows air and water to mix with the contents, accelerating decomposition.

Simply plunge and lift — the retracting propeller-like fins fold in for easy plunging, then fold out and turn the pile as you lift.

Rain Barrel
\$59

Minimize water bills and help reduce excess runoff with this robust and attractive \$120 value rain barrel. Just fill a watering can or attach a hose to the supplied spigot. Multiple barrels can be linked. Child-safe lid. Made of minimum 75% recycled content.

For ease of use and increased water pressure, add a matching stand for only \$20 (sold separately).

Madison County Department of Solid Waste
